SKILLS

Frontend	Design Thinking
UX/UI	Interaction Design
User Research	Prototyping
User Journey Optimization	

I am a Multimedia Design student at the EK with a strong interest in **frontend development** and **UX design**, creating **user-friendly digital solutions** that balance function and aesthetics. I am **detail-oriented and quality-driven**, always striving to deliver thoughtful, high-quality results. My attention to detail ensures that every project I work on is carefully refined and executed with precision. I thrive in **collaborative, creative environments** where ideas can grow through discussion and shared innovation.

WORK EXPERIENCE

Frontend Developer Intern at Flowplan ApS January 2026 - March 2026

- Developed and implemented frontend features using React and React Native.
- Worked with UX/UI design and usability improvements across web and mobile platforms.
- Designed and prototyped solutions in Figma.
- Improved component structure through refactoring and clean code practices.

Sales Advisor at H&M Valby (part-time) June 2022 - Present

- Delivered friendly and professional customer service to enhance the shopping experience.
- Assisted customers with a 'customer first mindset'.
- Supported daily sales, garment care, and store presentation.
- Worked collaboratively with the team to achieve sales goals.
